

1000C Compact Water Boiler

The Professional's Choice

The New Instanta 1000C

The 1000C is designed for those locations where space is limited but standards are high.

Made to Instanta's exacting specification criteria, the 1000C is the boiling water solution for small to medium size catering establishments.

Features and benefits

- Large non-drip tap, with brass spindle
- Long-life incoloy element
- Easy installation, maintenance and cleaning
- Electronically controlled for constant temperatures of $\approx 97^{\circ}\text{C}$
- Well insulated for minimal heat-loss and energy use
- Low voltage switching
- Self diagnostics system
- Stainless steel drip tray included
- Complete with 1.75 metres of cable and 13amp plug

Installation

Easy to install on a stable worktop.

Electrical

To be connected to a 230 volt supply with a suitable break capacity. Supplied with 1.75 metres of cable and 13amp plug.

Plumbing

Designed for direct connection to a potable cold water supply using the 1.6 metre $\frac{3}{4}$ " BSP hose supplied.

An isolating valve should be installed between the supply and the heater. Rear supply connection and choice of rear or front overflow.

Construction

Mirror polish stainless steel case. Stainless Steel heating chamber. Low voltage switching. 2 safety cut-outs.
